

## ***Satellite-based Global Precipitation Data and Services at NASA GES DISC***

*Zhong Liu, NASA and George Mason University*

*November 11, 1:30PM-2:30PM*

In this two-part presentation, Zhong Liu will present satellite-based global precipitation data and services at NASA GES DISC (<https://dic.gsfc.nasa.gov>), one of the NASA 12 Distributed Active Archive Centers or DAACs.

In Part I, a description of the GES DISC and its history will be presented, followed by its data collections with emphasis on global precipitation datasets and services including our easy-to-use Giovanni (<https://giovanni.gsfc.nasa.gov>), an online visualization and analysis tool without downloading data and software.

In Part II, focus will be given to precipitation data services with a live demo.
